Experience

Litmus7 Systems Consulting Ltd.   Nov 2020 - Sept 2024

Senior Engineer   April 2023 - Sept 2024

- Delivered fully functional platforms collaborating with back-end developers, using React, Material UI, Vite, Zustand/Redux and TypeScript/JavaScript.
- Conducted and formulated in-depth UI/UX analysis research for upcoming projects using Miro and Confluence.
- Designed a UX design in Figma and implemented it for an immediate demo requirement in 1 week.
- Assisted other teams to address critical errors, elevate presentation and improve major features for client demos within 1-2 weeks.

Associate Engineer   Jan 2021 - Mar 2023

- Developed and integrated a widget for a client using HTML, CSS and jQuery, working closely with the product team.
- Created interactive prototypes to ensure alignment with client expectations and project goals.
- Implemented dashboards in React for various projects working closely with the back-end team.
- Delivered a proof-of-concept dashboard for a demo within a 5 day deadline using React.
- Built a Keycloak theme for a project.
- Ensured well-written test cases using Jest and React Testing Library.
- Maintained and refactored previous projects.

Intern   Nov 2020 - Jan 2021

- Developed a React application by collaborating with the AI team to showcase their product.
